Auditing ensures a reasonable assurance that financial statements and disclosures are free from material misstatement. Auditors assess the risk of material misstatement in a company's financial reports.

We assist you with:

- Statutory Audit
- Internal Audit
- Corporate Reporting
- Capital Market Engagements
- Assurance Engagements
- Review Engagements
- Certifications Engagements
- Stock and Asset Auditing
- Information Security Auditing
- Fraud Investigation
- Financial Due Diligence

The audit we do increases the value and credibility of the financial statements produced by the companies.

An internal audit function can find and correct deficiencies quickly and limit costs of your company. Financial review gives limited assurance that there are no material modifications that need to be made to an entity's financial statements.

ADVISORY & CONSULTING

Be Wise or Otherwise

Business is an applied art, an expression or application of creative skill and imagination, in a visual or intangible form for bringing a synergic outcome. Performing the art of business need different skills.

Our Advisory & Consulting services includes:

- Tax Consulting
- Risk Advisory
- Financial Advisory
- Strategy Consulting
- Legal Advisory
- Islamic Finance Advisory

Our team provides advice on tax compliance, raising capital and evaluation of investment portfolio for growth and diversification of the business. Our team also helps in organizing the legal documents and advising the companies on all relevant legal issues that make threats for the company.

We help keep you informed of the various risks that may arise even before you encounter them and assist you in dealing with these challenges. Using our expert prowess and comprehensive evaluation, we analyse which strategies need to be adopted and can ultimately favour the organization.

BUSINESS SERVICES

Ensuring the Compliance

Business Services include everything needed to be done for a business to succeed. We ensure the compliance and success. A company can thrive when its customers consider it as a trustworthy entity. On the other hand, non-compliance can lead to disastrous ramifications that can be hard to get out of. We structure compliance policies and also see that it is being adhered to.

Our key business services are:

- Accounting Setup
- Accounting & Book Keeping
- HR Services
- Budgeting & Forecasting
- Financial Analysis
- Compliance Services

Our services include efforts to ensure that businesses are meeting their growth and profit goals abiding the rules and regulations. A plan for obtaining and using resources is important for the business to become successful.

Our expert team of accountants can take care of your business numbers while you concentrate on other important tasks of the business. We provide you with the awareness that arises from thorough diagnosis of financial statements and reports which help you further understand your business.

BUSINESS START UP

Build Your Business Dreams

Start-ups require vast amounts of learning and one on one consulting which finalize whether the idea is plausible and has the probability to be successful. We help you to “get it right” before committing resources, time, or budget.

Our main Start-Up services are:

- Startup Consulting
- Budgeting
- Feasibility Study
- Policy Manual
- Business Plan
- Pricing Decisions

We ensure that the roots on which your ideas are based are strong by considering every aspect from the inception of your start-up. We examine the feasibility of a proposal, business venture or idea. Our experts determine potential positive and negative outcomes before you invest considerable time and capital into it. We design plans that clarify your mission and vision, draw in financing and strengthen milestones while bringing your ideas one step closer to reality.

Our team, being behind so many start-up businesses with a blend of diverse entrepreneurial experience, real business insight and practical solutions can help organizations and people who have an innovative idea with a vision and passion.

Thriving in fast changing market place will require Business Restructuring at times to ensure that you are staying ahead of the competition and don't fall behind the market conditions.

We assist our clients to:

- Restructuring Strategy
- Tax Planning
- Financial Restructuring
- Working Capital Improvement
- Operational Restructuring
- Business Recovery

Business Restructuring is the act of reorganizing the legal, operational, financial or other structures of a company for making it more profitable and better organized.

Our team of experts are committed to guide our clients to rebuild their strategy with a realistic assessment of the circumstances to identify the opportunities for a perfect solution.

MERGERS & ACQUISITIONS

Energy to Bring Synergy

Substantial amount of due diligence is required in Mergers & Acquisition.

Merging two or more business entities into a single business entity will bring greater efficiencies of scale and productivity along with the rewards that come from combined strengths.

We guide our clients in:

- Merger
- Acquisition
- Joint Venture
- Synergy Analysis
- Valuation
- Post Merger Integration

Acquisition makes it easy to enter new markets, gain market shares, cater to a niche audience or it could simply be the most economically viable option.

By prudently planning the activities and properly anticipating the related issues, we make our clients to ensure that they know what they're buying and obligations they're assuming, the nature and extent of target company's contingent liabilities, risks, etc., before making any commitment.
